

Enclosed please find your swim knockers.

They are the _____ ones.

Your regular knockers work fine for swimming but you may find that these designated “swimmers” dry faster as they are made from an acrylic blend yarn. These swimmers are stuffed with a Poly Fiber Fill that can be squeezed after swimming to facilitate quicker drying. Another option for filling is the tulle/net shower scrubbies that may be found at your local Dollar Store or similar shop.

To replace the filling, just expand the hole on the back of your knocker, remove the fiber fill and replace with the scrubbie. Do not cinch tight when reclosing the hole.

Please enjoy exercising or swimming with your new swimmer knockers.

Check out the FAQ section at knittedknockers.org for more information.
