

Knitted Knockers are special, soft, light weight breast prosthetics that are very comfortable for women who have undergone mastectomies, lumpectomies and radiation, and/ or are undergoing reconstruction. They can be worn with any regular bra and are machine washable. By simply removing some stuffing they can be used to balance out uneven breasts. These have been overstuffed to allow for adjustment. If you don't find a size or color you like please feel free to contact us. If you search for us online the Facebook page is ours from Bellingham and the web page is www.knittedknockers.org.

Please enjoy the enclosed Knitted Knocker, compliments of our volunteer knitters and supporters. You can customize the fit of your knocker by adding or subtracting the filling. We recommend and use regular PolyFill that can be obtained at most craft outlets. Once you have the fit you like, seam up the hole. Some women prefer to add a weight to the knocker. This is a personal preference. A small stone usually works well.

This knitted knocker has been made with love and our hope is that you will find this a comfortable and affordable alternative to traditional prosthesis that can be worn with your regular bra. If you would like more or a different size feel free to contact knittedknockers@gmail.com or (360)305-2139.

If you would like to have the pattern or know someone who would like to contribute to the supply for other women please visit www.knittedknockers.org or contact us via knittedknockers@gmail.com. Visit our Facebook page, Knitted Knockers, and post comments about what you think of them and help inspire others to help out.
